

The ultimate solution for transporting people and cargo safely together

Northern Truck Bodies in conjunction with Snoeks Automotive B.V., the double cabin specialist for Europe has developed a double cabin especially for the Mercedes-Benz Vito.

By adding a second seat row with in integrated partition wall it is possible to convert your closed panel van into a double cabin at all times. The perfect solution for the combined transport of people and material. Safe, comfortable and efficient.

THE ULTIMATE SOLUTION FOR TRANSPORTING PEOPLE AND CARGO SAFELY TOGETHER

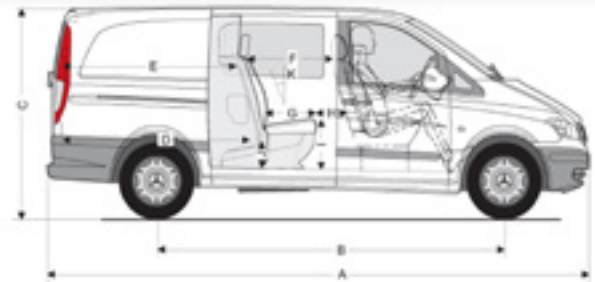

Obviously the double cabin applies to the highest European safety standards. The bench is provided with three approved 3-point seat belts and adjustable head rests. The separation wall is also designed to meet the DIN 75410-3 standard for load shifting protection.

Next to safety, comfort is one of the starting points of the development process. The location of the bench has been worked out in a way that both leg room and load area are maximized. Furthermore high density materials are used to improve the comfort of the passengers. The double cabin also offers pockets in the left side wall, the right side of the partition wall and the bench cover.

Also design plays an important role when developing a double cabin. Materials and shapes are as close to OE-design as possible, including floor, side wall covers and headlining. The fine designed partition wall separates load and passenger compartment completely. Additional load space under the rear passenger bench extends the load area to allow practical storage of longer items like ladders.

DIMENSIONS

STANDARD ACCESSORIES

- High strength ABS-plastic
- Luxury design partition wall and window
- Bench cover with pocket
- Pocket right side partition wall
- Additional load space from behind under rear bench
- Window with safety glass
- Pocket left side wall
- 3x3-point safety seat belts (lap & diagonal)
- Headrests tillable and adjustable in height
- Cushion set trim to match front seats
- Pre- assembly double cabin bench
- Floor covering original vinyl 2nd seat row
- ABS-panel under- and top side left side wall and right sliding door
- Headlining ABS-plastic covered with cloth
