

The ultimate solution for transporting people and cargo safely together

Northern Truck Bodies in conjunction with Snoeks Automotive B.V., the double cabin specialist for Europe has developed a double cabin especially for the Volkswagen Transporter.

By adding a second seat row with an integrated partition wall it is possible to convert your closed panel van into a double cabin at all times. The perfect solution for the combined transport of people and material. Safe, comfortable and efficient.

The double cabin matches six-seater capacity with a large load area. Obviously the concept complies with the highest European level of safety standards; the construction is N1/M1 approved by 20G pull tests on frame and seatbelt connecting points. The adjustable headrests are fully M1 tested. The three seats are equipped with approved three-point seatbelts.

# THE ULTIMATE SOLUTION FOR TRANSPORTING PEOPLE AND CARGO SAFELY TOGETHER

Next to safety comfort is one of the starting-points for the development process. The location of the seat has been worked out in a way that both legroom and load area are maximized. There is also a large pocket to store things and the seats are finished with original upholstery. Northern Truck Bodies always uses high quality and durable basic materials.

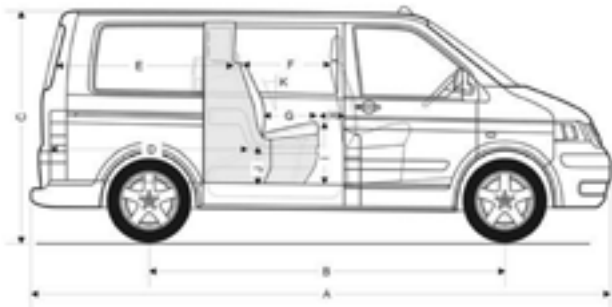

Also the design of the double cabin has played an important role. By means of a well-designed ABS bulkhead the load area and the passenger compartment are completely divided. Nevertheless the room under the rear seats is accessible from behind to allow practical storage of longer items like ladders.

An excellent standard of quality is guaranteed due to the fact that the entire process, including design and production of the parts, is in Northern Truck Bodies own hands.

The double cabin is easily adaptable to a large range of work and leisure purposes allowing you to transport both load, work-crew or family in a comfortable and safe way.

## DIMENSIONS

## STANDARD ACCESSORIES

- High-strength ABS-plastic
- Luxury design
- Safety window (R43 approved)
- Bench cover
- Pocket in bench cover
- Safety tube frame
- 3x3-point safety seatbelts
- Adjustable approved headrests
- Three-passenger contoured seat
- Cushion set with original upholstery INKA
- Rubber covered
- Sliding door covers in grey plywood (MDF)
- Ashtray
- Headlining in grey plywood (MDF)
- Relocate original interior lamp
